Tito,

Here are my comments and editorial suggestions on the Q&A's document (in Track Changes) as per your request. Please let me know if you have any questions.

Thanks -

Scott

Scott:

Following up on my e-mail message and phone conversation of earlier today

This is the final version of the Dimock Statement and Reactive QandA's relative to the first week of sampling results. This is the one completed last week.

(See attached file: 032812 - Final Round 1 Dimock Statement and Reactive Qs and As.docx)

This document is a close to final draft version which was used to develop the final version provided above. Only providing you this one as background given that

Ex. 5 - Deliberative

Ex. 5 - Deliberative

(See attached file: Dimock round one messaging v1 032312.doc.docx)

Following the model established through the first attachment above, here's the current draft based on the review and finding from the 2nd week of sampling data reviewed this past Wednesday. This is an advanced copy of it while the official draft comes in through the HQ OEAE for vetting through HQ Sr. Leadership. You (Scott) should give this one a review and provide comments/feedback to Dana T. and myself (Cc Janine and Terry). The end goal for the vetting of this document is to have a final ready by next Monday.

(See attached file: 032912 - Draft Round 2 Dimock Statement and Reactive Qs and As.docx)

Thanks,
Gilberto "Tito" Irizarry
